

BluWav Growth

SALES AGENT ONBOARDING PACKAGE

Everything you need to close deals from day one.

Version 1.0 · July 2026 · Confidential

Get Found. Get Chosen. Grow.

What's Inside This Package

- Section 1 — Welcome Letter from Andrea M. Tanguay
- Section 2 — BluWav Growth: Who We Are & What We Sell
- Section 3 — Product Sheets (Ripple · Current · Surge · CRM)
- Section 4 — Sales Scripts (Opening · Pitch · Close)
- Section 5 — Objection Handler (Top 15 Objections)
- Section 6 — Commission Structure & Earnings Scenarios
- Section 7 — Your First 30 Days Action Plan
- Section 8 — Quick Reference Card

SECTION 1

Welcome to the Team

A personal note from our founder

Dear [Agent Name],

Welcome to BluWav Growth. I'm genuinely glad you're here.

You've joined a company that was built on a simple belief: every business — no matter how small, no matter where in the world — deserves a professional digital presence that actually works. We've proven that belief in the Caribbean, and now we're taking it global.

As a Sales Agent, you are the most important person in this company. Not because of what you sell — but because of the conversations you have. You're the one who sits across from a business owner who's been invisible online for years and shows them that there's a better way. That's not just sales. That's impact.

Here's what I need you to know:

- We sell real products that deliver real results. Every package we offer has been built, tested, and refined. When you promise a client a website in 48 hours, we deliver it.
- You will never be alone. Every week, we check in. Every question gets answered. Every deal gets support.
- Your earnings are uncapped. The more you close, the more you earn. There is no ceiling.
- We are building something global. You are part of that from day one.

This package contains everything you need to start closing deals. Read it. Know it. Use it.

Now let's get to work.

Warm regards,

Andrea M. Tanguay

Founder, BluWav Growth · A Stratiix Group Company

SECTION 2

BluWav Growth: Who We Are

Our story, our mission, our edge

Our Mission

BluWav Growth is a digital growth systems firm. We help modern businesses get found, get chosen, and grow — through a complete, interconnected digital growth system built across four pillars.

We are not a website design agency.

We are not a marketing shop.

We are not a CRM company.

We are a digital growth systems firm — focused on strengthening your digital health so your business can grow with clarity, consistency, and confidence.

Every modern business needs a digital system that works — a system that helps customers find you, understand you, trust you, and choose you. Not a collection of disconnected tools. Not a pretty website sitting on its own. A system. BluWav Growth builds that system.

The Four Pillars of the Growth System

Your growth system is built across four interconnected pillars. The first three ensure your business can be found. The fourth ensures it gets chosen.

Pillar	Name	Purpose	Outcome
1	Digital Presence	Website — clear, fast, mobile-ready, built to convert	Get Found
2	Google Visibility	Google Business Profile — a magnet, not a placeholder	Get Found
3	Search Performance	Impressions, clicks, keywords, competitor gaps	Get Found
4	Digital Systems	Intake, follow-up, CRM — where most businesses lose leads	Get Chosen

Where the CRM fits in:

Once the digital foundation is strengthened, the BluWav CRM connects everything — leads, follow-ups, deals, revenue — into one working sales machine. The CRM is not the product. The growth system is the product. The CRM is how we make that system real.

Our Edge — Why Businesses Choose Us

What We Deliver	Typical Market Approach	The BluWav Approach
Digital Growth System	Website, CRM, GBP sold separately	Fully integrated system — 48–72 hours
Professional Website	\$3,000–\$8,000 · 6–12 weeks	Included (valued at \$3,000+)
Google Business Profile	\$500–\$1,500 · separate engagement	Included (valued at \$500+)
CRM + Automation	\$150–\$800/month · standalone tool	\$99–\$179/month · integrated
Full Digital Setup	\$8,000–\$15,000 · multiple vendors	\$1,800–\$5,000+ · one system

We're not cheaper — we're faster, integrated, and built for modern businesses.

Our Three Products

Growth Systems — One-time setup fee

Ripple (\$1,800+) · Current (\$3,000+) · Surge (\$5,000+)

Website + Google + WhatsApp + CRM + Automation. Delivered in 48 hours.

BluWav CRM — Monthly subscription

CRM Lite (\$199 setup + \$99/mo) · CRM Premium (\$299 setup + \$179/mo)

Lead tracking, automation, WhatsApp integration, reporting. 14-day free trial.

White-Label CRM — Agency partner programme

\$499 setup + \$697/month (annual contract)

Your brand, your domain, unlimited clients. Charge \$297–\$997/month per client.

The BluWav Promise

- You own everything we build — website, CRM, data, accounts
- Nothing goes live without your approval
- Delivered in 48–72 hours from payment
- No lock-in. No hidden fees. No surprises.
- 30 days post-launch support included

SECTION 3

Product Sheets

Know every product inside out

BluWav Ripple — \$1,800+

The fastest way to get a business online with everything needed to start winning customers from day one.

Feature	Included
Modern website (client owns forever)	✓
Google Business Profile setup	✓
CRM included (14-day trial)	✓
Smart lead automation	✓
Performance dashboard	✓
On-page SEO essentials	✓
Google Search Console + GA4 setup	✓
WhatsApp chat button	✓
Mobile-optimised design	✓
Fast, secure hosting (6 months)	✓
Standard support	✓

Best for:

Businesses with no website, or a website that doesn't convert. Service businesses, restaurants, salons, contractors, retailers getting online for the first time.

Your pitch line:

"For \$1,800, you get a professional website, Google visibility, and a CRM — all in 48 hours. Most agencies charge \$5,000 and take 3 months."

BluWav Current — \$3,000+

The complete growth engine for businesses ready to attract consistent leads, dominate local search, and turn conversations into customers every month.

Feature	Included
Everything in Ripple	✓
WhatsApp Business profile setup	✓
WhatsApp product catalog setup	✓
Quick replies & automated messages	✓
Advanced WhatsApp lead sequences	✓
Local SEO + competitor gap analysis	✓
5-star reputation builder	✓
Automated lead pipeline	✓
Conversion-optimised landing page	✓
Monthly performance check-in call	✓
Priority support	✓

Best for:

Businesses that already have some online presence but aren't getting consistent leads. Businesses losing customers to competitors. Anyone who wants WhatsApp automation.

Your pitch line:

"Current is our most popular package. It's the full growth engine — website, WhatsApp automation, local SEO, and a lead pipeline that works while you sleep."

 BluWav Surge — \$5,000+

For businesses scaling aggressively — full multi-channel domination, advanced automation, and a dedicated team managing their growth.

Feature	Included
Everything in Current	✓
Full WhatsApp sales funnel	✓
Google Ads campaign setup & launch	✓
Bing Places + multi-search engine listing	✓
Ad-ready setup (Google + Bing Ads)	✓
Monthly visibility & performance report	✓
Quarterly strategy review call	✓

Feature	Included
Dedicated account manager	✓

Best for:
 Established businesses ready to scale. Businesses with ad budgets. Clients who want a dedicated team managing their digital growth.

Your pitch line:
"Surge is for businesses that are serious about growth. You get everything — Google Ads, multi-channel visibility, a dedicated account manager, and quarterly strategy reviews."

BluWav CRM — Monthly Plans

Plan	Setup	Monthly	Annual	Best For
CRM Lite	\$199	\$99/mo	\$990/yr	Basics — contacts, leads, WhatsApp
CRM Premium	\$299	\$179/mo	\$1,790/yr	Full automation, unlimited contacts, team
CRM Solo	\$999 one-time	—	—	Solo operators, no monthly fee
Non-Profit	No setup	\$99/mo	—	Registered nonprofits only
White-Label	\$499	\$697/mo	\$7,864/yr	Agencies reselling under own brand

CRM upsell tip:
 Every Growth System includes a 14-day free trial of CRM Premium. After the trial, most clients upgrade. Your commission applies to the setup fee + first 3 months of recurring.

SECTION 4

Sales Scripts

Word-for-word scripts that close deals

These scripts are starting points — not rigid scripts. Adapt them to your voice and the client's situation. The goal is always to understand their problem first, then show them the solution.

Script 1: The Cold Outreach (WhatsApp / Phone)

Use when:

Reaching out to a business you've identified as a prospect — no prior contact.

Opening Message (WhatsApp)

Hi [Name], my name is [Your Name] — I work with BluWav Growth, a digital agency that helps businesses like yours get found online and win more customers.

I noticed [specific observation — e.g. "your Google Business Profile isn't fully set up" / "your website isn't showing up for [keyword]" / "you don't have a website yet"].

We offer a free Digital Health Check — we review your online presence and WhatsApp you the results in 48 hours. No cost, no commitment.

Would that be useful for you?

If They Say Yes

"Great. I'll send you the link now — it takes 2 minutes to fill in. Once we've reviewed your business, I'll WhatsApp you the results personally and we can go from there."

→ **Send:** bluwavgrowth.com/health-check.html

If They Say "What does it cost?"

"The health check is completely free — no credit card, no commitment. We do it because we want you to see exactly where your business stands before you make any decisions. If you like what we find, we can talk about next steps. If not, the report is yours to keep."

Script 2: The Discovery Call

Use when:

You have a warm lead — someone who filled in the health check, was referred, or expressed interest.

Opening (first 60 seconds)

"Hi [Name], thanks for taking the time. I've had a chance to look at [Business Name] online and I have some thoughts I'd love to share with you."

"Before I do — can I ask you a quick question? When a potential customer searches for [what they do] in [their area], what do you think they find?"

[Let them answer. Most will say "I'm not sure" or "probably not much."]

"That's exactly what I found. Here's what's happening..."

The Problem Statement

"Right now, when someone searches for [their service] in [their area], your business isn't showing up. That means every day, potential customers are finding your competitors instead of you."

"The good news is — this is completely fixable. And we can fix it in 48 hours."

The Pitch (tailor to their situation)

"What we do is build you a complete digital system — a professional website you own forever, your Google Business Profile fully set up, WhatsApp integration, and a CRM to track your leads. Everything in one package, delivered in 48 hours."

"Most agencies charge \$5,000–\$10,000 for this and take 3 months. We do it for \$1,800 and deliver in 48 hours. You own everything. No monthly fees unless you choose them."

The Close

"Based on what you've told me, I think [Ripple/Current/Surge] is the right fit for you. It's \$[price]. We'd start as soon as you approve the scope — which I'll send you today."

"Do you want to move forward?"

Script 3: The Follow-Up (48 hours after no response)

"Hi [Name], just following up on my message from [day]. I know you're busy — I just wanted to make sure you got the health check results I sent."

"The main thing I found was [one specific issue]. That's costing you customers every day."

"Happy to jump on a quick call this week if you'd like to talk through it. What works for you?"

Script 4: The Referral Ask

Use after a successful delivery or positive client interaction.

"[Name], I'm really glad the [website/CRM/system] is working well for you. Can I ask — do you know any other business owners who might be in the same situation you were in before we worked together?"

"If you refer them and they sign up, you'll earn [10% commission] — and they'll get the same results you did."

SECTION 5

Objection Handler

Turn every "no" into a conversation

Every objection is a question in disguise. The client isn't saying no — they're saying "I'm not convinced yet." Your job is to find out what's really behind the objection and address it directly.

The 15 Most Common Objections

1. "It's too expensive."

Response:

"I understand. Can I ask — what are you currently spending to get new customers? Flyers, word of mouth, social media ads?"

[Let them answer]

"Most businesses spend \$200–\$500 a month on marketing that doesn't track results. Our system costs \$1,800 once — and you own it forever. That's less than 3 months of most marketing budgets, and it works 24/7."

2. "I need to think about it."

Response:

"Of course. What specifically would you like to think through? Is it the price, the timing, or something about the package itself?"

[Identify the real objection — "I need to think about it" is almost never the real issue]

"I ask because every day without a digital presence is a day your competitors are winning customers that should be yours. I'd hate for that to continue while you're thinking."

3. "I already have a website."

Response:

"That's great. Can I ask — when someone searches for [their service] in [their area] on Google, does your website show up on the first page?"

[Most will say no or "I'm not sure"]

"That's the issue. Having a website isn't enough — it needs to be found. Our system includes Google visibility, local SEO, and a Google Business Profile setup that gets you in front of customers who are actively searching for what you offer."

4. "I'm not tech-savvy."

Response:

"That's exactly why we exist. You don't need to be. We handle everything — design, setup, Google, WhatsApp, CRM. You just tell us about your business and we build it. You approve it before it goes live. After that, it runs itself."

5. "I don't have time right now."

Response:

"I completely understand — that's actually why our process is designed the way it is. We need about 30 minutes of your time total: 15 minutes to brief us, and 15 minutes to approve the final result. We do everything else. And we deliver in 48 hours."

6. "I'll do it myself."

Response:

"Absolutely — and if you have the time and skills, that's a great option. Can I ask — how long have you been thinking about getting online? [Most will say months or years.] Our clients typically spend 6–12 months trying to do it themselves before they come to us. We do it in 48 hours for \$1,800. What's your time worth?"

7. "I've been burned by agencies before."

Response:

"I'm sorry to hear that — unfortunately it's very common. Can I ask what happened?"

[Let them explain]

"Here's what makes us different: you own everything we build. We sign a contract before we start. Nothing goes live without your approval. And we deliver in 48 hours — so you're not waiting months to see results. If we don't deliver, you don't pay."

8. "Can you do it cheaper?"

Response:

"Our pricing reflects the quality and speed of what we deliver. What I can tell you is that we're already 50–70% cheaper than most agencies for the same scope. What I'd rather do is make sure you're on the right package — sometimes clients start with Ripple and upgrade later. Would that work better for your budget right now?"

9. "I need to talk to my partner/spouse first."

Response:

"Of course — this is a business decision and it makes sense to align. Would it be helpful if I joined a quick call with both of you? I can answer any questions they have directly. When would work?"

10. "I don't need a CRM."

Response:

"That's fair — and you don't have to use it. But let me ask: when a lead contacts you, what happens? Do you have a system to follow up automatically, or does it depend on you remembering?"

[Most will admit leads fall through the cracks]

"That's exactly what the CRM solves. It's included in your trial — try it for 14 days and see if it changes how you manage leads. If it doesn't, you don't have to keep it."

11. "How do I know you'll actually deliver?"

Response:

"Great question. Here's our process: we sign a contract before we start. You approve the scope. We deliver in 48 hours. You review and approve before anything goes live. If we miss the deadline with no valid reason, you get a full refund. We also have [X] clients who've been through this — I'm happy to share their experience."

12. "I'm not sure my customers use the internet."

Response:

"I understand the concern. Can I ask — do your customers have smartphones? [Yes.] Do they use WhatsApp? [Yes.] Do they ever Google things? [Yes.] Then they're online. The question is whether they can find you when they search for what you offer."

13. "I'll wait until business picks up."

Response:

"I hear that a lot — and I understand the logic. But here's the thing: business picks up when more customers can find you. The website and Google visibility are what create the pickup. Waiting for business to improve before getting online is like waiting to feel better before taking the medicine."

14. "What if I want to cancel?"

Response:

"The Growth System is a one-time fee — there's nothing to cancel. You own the website forever. If you choose CRM Premium, you can cancel with 30 days notice. But honestly, once you see the leads coming in, cancelling is the last thing you'll want to do."

15. "I'll think about it and call you back."

Response:

"I appreciate that. Before we hang up — can I ask what would need to be true for you to say yes today? Is there something specific holding you back that I haven't addressed?"

[If they still won't commit:]

"No problem. I'll follow up on [specific day]. In the meantime, I'll send you our case study so you can see exactly what we delivered for a similar business. Fair enough?"

SECTION 6

Commission Structure

Your earnings — uncapped

Base Commission — 20% on Every Sale

Package	Price	Your Commission
Ripple	\$1,800+	\$360+
Current	\$3,000+	\$600+
Surge	\$5,000+	\$1,000+
CRM Lite monthly (×3 months)	\$99/mo	\$20/mo × 3 = \$60
CRM Premium monthly (×3 months)	\$179/mo	\$36/mo × 3 = \$108
White-Label monthly (×3 months)	\$697/mo	\$139/mo × 3 = \$418

Note on CRM commissions:

Commission is earned on the first 3 months of recurring CRM payments only. There is no commission on setup fees. Setup fees cover onboarding costs.

Performance Bonuses

Milestone	Threshold	Bonus
Monthly Starter Bonus	3+ sales/month	+\$150 flat
Monthly Growth Bonus	5+ sales/month	+\$400 flat
Quarterly Champion	15+ sales/quarter	+\$1,000
Annual Elite	60+ sales/year	+\$5,000
Surge Specialist	2+ Surge/month	+\$200 per Surge

Earnings Scenarios

Scenario A — Part-time (3 sales/month)

2× Ripple (\$360×2) + 1× Current (\$600) = \$1,320 base + \$150 bonus = \$1,470/month

Annual: \$17,640

Scenario B — Active (5 sales/month)

$2 \times \text{Ripple} + 2 \times \text{Current} + 1 \times \text{Surge} = \$360 \times 2 + \$600 \times 2 + \$1,000 = \$2,920 + \$400 \text{ bonus} =$
 $\$3,320/\text{month}$

Annual: \$39,840

Scenario C — Top performer (8 sales/month)

$3 \times \text{Current} + 2 \times \text{Surge} + 3 \times \text{CRM Lite} = \$600 \times 3 + \$1,000 \times 2 + \$40 \times 3 = \$3,920 + \$400 \text{ bonus} =$
 $\$4,320/\text{month}$

Annual: \$51,840 + \$1,000 quarterly bonus

Payment terms:

Commission paid within 7 business days of client payment clearance. Minimum payout: \$50. Paid via bank transfer, PayPal, or WiPay.

SECTION 7

Your First 30 Days

A clear action plan from day one

Week 1 — Learn the Product

1. Read this entire package. Know every product, price, and feature.
2. Visit bluwavgrowth.com — explore every page as a prospect would.
3. Read the AADEK case study at bluwavgrowth.com/case-study-aadek.html
4. Set up your CRM access — log in and explore the dashboard.
5. Identify your first 20 prospects — businesses in your network with no/weak online presence.

Week 2 — First Outreach

1. Send the cold outreach script to your 20 prospects via WhatsApp.
2. Follow up with anyone who doesn't respond within 48 hours.
3. Book at least 3 discovery calls.
4. Attend your first weekly check-in with the BluWav team.

Week 3 — First Deals

1. Run your discovery calls using Script 2.
2. Submit at least 2 proposals (apply.html links with the right package).
3. Handle objections using Section 5 of this guide.
4. Close your first deal. Celebrate. Then close another.

Week 4 — Build Your Pipeline

- Ask every client for a referral (Script 4).
- Identify 20 more prospects.
- Review your commission earnings and set your Month 2 target.
- Share your wins with the team — we celebrate together.

Your Month 1 target:

3 closed deals minimum. That's \$1,470+ in commission plus your \$150 starter bonus.

You can do this. We've seen it done in week one.

SECTION 8

Quick Reference Card

Everything at a glance

Prices at a Glance

Product	Price	Your 20%
Ripple	\$1,800+	\$360+
Current	\$3,000+	\$600+
Surge	\$5,000+	\$1,000+
CRM Lite	\$199 setup + \$99/mo	\$40 + \$20/mo×3
CRM Premium	\$299 setup + \$179/mo	\$60 + \$36/mo×3
White-Label	\$499 setup + \$697/mo	\$100 + \$99/mo×3

BluWav Growth

SALES SUPPLEMENT

White-Label Pitch Guide + Advanced Objection Scripts

Version 1.0 · July 2026 · Confidential

What's Inside

- Supplement 1 — White-Label Pitch Guide: Ideal Client, Pain Points & Value Statement
- Supplement 2 — Advanced Objection Scripts: Approach vs Price Responses

SUPPLEMENT 1

White-Label Pitch Guide

Who to target, what to say, and how to close

The White-Label programme is your highest-value conversation — but it's also the most different from a standard Growth System sale. You're not selling to a business owner who needs a website. You're selling to a professional who wants to build a recurring revenue stream. The conversation, the pitch, and the close are completely different.

Who Is the Ideal White-Label Client?

The ideal White-Label partner is someone who already has relationships with business owners — but isn't currently monetising those relationships with digital services. They have the trust. They have the access. They just don't have the product.

Ideal Partner Type	Why They're a Fit	Conversation Starter
Digital agency / web studio	Has clients needing full systems, not just websites	"Are you leaving CRM and automation revenue on the table?"
Business consultant / coach	Trusted advisor to business owners	"Your clients need digital systems — you could be the one delivering them."
Accountant / bookkeeper	SME client base, high trust, recurring relationship	"Your clients are losing leads online. You could fix that and earn from it."
IT support company	Already serves SMEs on tech	"You handle their hardware — we can handle their digital growth."
Marketing freelancer	Wants to productize and scale	"Stop trading time for money. Build a recurring revenue product."
Business association / chamber	Serves member businesses	"Offer your members a branded digital growth system as a member benefit."

The Five Pain Points White-Label Solves

Pain 1: "I want to offer digital services but I can't build the tech."

Response: "You don't need to. We build it. You brand it. Your clients never know we exist."

Pain 2: "I'm leaving money on the table — my clients need websites but I don't do that."

Response: "Exactly. With White-Label, you can offer a complete digital growth system under your brand — starting tomorrow."

Pain 3: "I want recurring revenue, not just project fees."

Response: "That's exactly what this is. Every client you onboard pays you monthly. You keep the margin. It compounds."

Pain 4: "I can't compete with agencies on delivery speed."

Response: "We deliver in 48 hours. You tell your client it's done in 48 hours. You look like a world-class agency."

Pain 5: "I want my own branded product, not to resell someone else's."

Response: "It is your product. Your logo. Your domain. Your pricing. Your clients never see BluWav."

The Economics — Show the Math

The most powerful thing you can do in a White-Label conversation is show the math. Most prospects don't realise how quickly they break even.

Clients Onboarded	They Charge Each	Monthly Revenue	BluWav Cost	Monthly Profit
2 clients	\$497/mo	\$994	\$697	\$297
5 clients	\$497/mo	\$2,485	\$697	\$1,788
10 clients	\$497/mo	\$4,970	\$697	\$4,273
20 clients	\$497/mo	\$9,940	\$697	\$9,243

Break-even point: just 2 clients at \$350/month each.

Most White-Label partners reach 5+ clients within 90 days.

At 10 clients, they're earning \$4,273/month in pure margin — on top of their existing income.

The Value Statement — Use This in Discovery Calls

When introducing White-Label in a discovery call, use this 3-sentence value statement:

"The White-Label programme lets you offer a complete digital growth system under your own brand — your logo, your domain, your pricing."

"You manage unlimited client accounts from one dashboard, charge \$297–\$997 per client per month, and keep the margin."

"With just two clients, you've already covered your cost — and everything after that is profit."

The White-Label Discovery Call Script

Opening

"[Name], I want to talk to you about something different today — not about your own business, but about a way to build a new revenue stream from the relationships you already have."

"You work with business owners. They need digital systems. Right now, you're not getting paid for that gap. We can change that."

The Qualifying Question

"How many business owner clients or contacts do you have who you know need a better online presence — but you've never been able to help them with it?"

[Let them answer. If they say 5+, you have a deal. If they say 2–3, show them the break-even math.]

The Pitch

"Here's what we do: we give you a fully branded version of our digital growth system — your logo, your domain, your name on everything. You onboard your clients, we build and deliver in 48 hours, and you charge whatever you want."

"You pay us \$697/month. You charge your clients \$300–\$997/month each. The difference is yours."

"With just two clients, you've covered your cost. With five, you're making \$1,788/month in pure margin."

The Close

"Do you have two clients right now who need this? Because if you do, we can have you set up and profitable within 30 days."

SUPPLEMENT 2

Advanced Objection Scripts

Approach vs price — how to win without competing on cost

These scripts are specifically designed for the approach-vs-price positioning. When a prospect compares you to cheaper alternatives, your job is not to defend the price — it's to reframe the conversation around what they're actually buying.

The core reframe:

"We're not cheaper — we're faster, integrated, and built for modern businesses."

Every objection response should bring the conversation back to speed, integration, and outcomes — not price.

Objection 1: "You're too expensive."

What they're really saying:

"I've seen cheaper options and I'm not sure the difference is worth it."

Response:

"I understand — and I want to make sure you're comparing the right things."

"A cheaper website gives you a website. What we give you is a complete digital growth system — your website, your Google Business Profile fully optimised, your WhatsApp integrated, your CRM set up, and your lead pipeline automated. All of it working together. All of it delivered in 48 hours."

"If you buy a website for \$500 and then spend \$500 on Google setup and \$150/month on a CRM, you've already spent more — and none of it is connected. We build the system once, and it works as one."

"The question isn't whether we're expensive. The question is: what does it cost you every month that your business isn't showing up online?"

Objection 2: "I can get a website cheaper elsewhere."

What they're really saying:

"I'm thinking of this as a website purchase, not a system purchase."

Response:

"You absolutely can — and if all you need is a website, you should. But let me ask you something: when was the last time a customer found your business because of your website alone?"

"Most businesses with cheap websites are invisible on Google, have no WhatsApp integration, and no system to follow up on leads. The website exists — but it doesn't work."

"What we build isn't a website. It's a growth system. The website is just one of four pillars. The other

three — Google visibility, search performance, and your digital systems — are what actually bring you customers."

"A cheaper website is a cheaper website. A growth system is a business asset."

Objection 3: "I just need a website — I don't need all of this."

What they're really saying:

"I don't understand why the other pieces matter."

Response:

"I hear that a lot — and I want to show you something. Can I ask: if a customer searches for [your service] in [your area] right now, what do they find?"

[Let them answer]

"A website without Google visibility is like a shop with no sign on the street. People can't find it. A website without a CRM means every lead that contacts you depends on you remembering to follow up. A website without WhatsApp integration means you're missing the way most customers actually want to communicate."

"These aren't extras. They're the parts that make the website actually work. That's why we build them as a system — because a website alone doesn't grow a business. A system does."

Objection 4: "I can get this done faster and cheaper with a freelancer."

What they're really saying:

"I'm comparing you to a single person who does websites."

Response:

"A freelancer can build you a website — and that might be the right choice if that's all you need. But here's the difference: a freelancer builds one thing. We build a system."

"To get what we deliver from freelancers, you'd need a web designer, a Google specialist, a WhatsApp setup expert, and a CRM consultant — all coordinated, all communicating, all delivering at the same time. That takes months and costs more."

"We deliver the complete system in 48 hours. One team. One invoice. One point of contact. And you own everything forever."

Objection 5: "Other agencies charge less for the same thing."

What they're really saying:

"I've been quoted less somewhere else."

Response:

"I'd love to understand what they're offering — because in my experience, when the price is significantly lower, something is missing."

"Is it a website only, or does it include Google Business Profile setup? Does it include CRM? WhatsApp integration? Lead automation? A performance dashboard? And what's the delivery timeline — weeks or 48 hours?"

"We're not the cheapest option — and we're not trying to be. We're the fastest, most integrated option. If you want a website, there are cheaper ways to get one. If you want a system that actually grows your business, this is it."

Objection 6: "Why should I pay \$1,800 when I can use Wix or Squarespace?"

What they're really saying:

"I'm thinking of this as a DIY vs done-for-you decision."

Response:

"Wix and Squarespace are great tools — if you have the time, the skills, and the patience to build, optimise, and maintain a website yourself. Most business owners don't."

"But more importantly — Wix gives you a website builder. We give you a growth system. Wix doesn't set up your Google Business Profile. It doesn't integrate your WhatsApp. It doesn't build your CRM. It doesn't automate your follow-ups."

"And here's the real question: how long have you been thinking about getting online? [Most say months or years.] We do it in 48 hours. What's your time worth?"

Objection 7 (White-Label): "\$697/month is a lot for a reseller programme."

What they're really saying:

"I'm not sure I can make the economics work."

Response:

"It is an investment — and I want to show you exactly how it works."

"If you bring on just two clients at \$400/month each, you're earning \$800 and paying us \$697. That's \$103 profit from day one — before you've done anything else."

"With five clients at \$497/month, you're making \$1,788/month in pure margin. With ten, it's \$4,273/month. The \$697 is fixed — your revenue isn't."

"The question isn't whether \$697 is a lot. The question is: do you have two clients who need this? Because if you do, you're already profitable."

Objection 8: "I need to see results before I commit."

What they're really saying:

"I'm risk-averse and want proof before spending."

Response:

"That's completely fair — and here's how we address that."

"Start with the Free Digital Health Check. We'll review your business online and show you exactly where you stand — for free, in 48 hours. No commitment."

"If the results show what I think they'll show, you'll see exactly what's costing you customers right now. And then you can decide whether fixing it is worth the investment."

"We also have a case study — AADEK Consulting in the Bahamas — where we rebuilt their entire digital presence in 48 hours. I'll send it to you now."

→ **Send: bluwavgrowth.com/case-study-aadek.html**

The Golden Rule of Approach-vs-Price Selling:

Never defend the price. Reframe the comparison.

They're not comparing prices — they're comparing apples to oranges. Your job is to show them the difference.

"We're not cheaper — we're faster, integrated, and built for modern businesses."

BluWav Growth

WHITE-LABEL PARTNER ONBOARDING SCRIPT

Step-by-step conversation guide for the first discovery call through partner activation

Version 1.0 · July 2026 · Confidential

How to Use This Script

This script covers the complete White-Label partner journey from first contact through activation. It is divided into four phases, each with a specific goal, a set of questions to ask, and word-for-word scripts to use.

Phase 1 — The Discovery Call (before they sign up)

Phase 2 — The Onboarding Call (day they sign up)

Phase 3 — The Setup & Expectation Call (within 48 hours)

Phase 4 — The Upsell Qualification (days 7–14)

PHASE 1 · BEFORE THEY SIGN UP — QUALIFYING AND CLOSING

The Discovery Call

Goal: Understand their existing client base, confirm they're a fit for White-Label, and close the agreement.

Before the call — do your homework:

Look up their business online. Check their website, Google Business Profile, LinkedIn. Understand what they do and who their clients are. Come prepared with one specific observation.

Opening (first 2 minutes)

"[Name], thanks for making time. I've had a look at [their business] and I have a clear picture of what you do. Before I tell you anything about what we offer, I want to understand your situation first — because White-Label isn't right for everyone, and I'd rather know that upfront."

"Can I ask you a few questions?"

The 8 Qualifying Questions

Ask these in order. Listen carefully. The answers tell you exactly how to pitch and what upsell opportunities exist.

Q1 — Size of existing client base

"How many active clients or business contacts do you currently work with — people you have a real relationship with?"

What you're listening for: 5+ is ideal. 2–4 is workable. Under 2 — they need to build their network first.

If under 5: "That's fine — let's talk about how you'd build your first 5 clients before we talk about the programme."

Q2 — Current digital service offering

"Do you currently offer any digital services to your clients — websites, social media, Google, anything like that?"

What you're listening for: If yes — they have proof of concept. If no — they're starting fresh, which means more hand-holding but also a clean slate.

If yes: "Great — so you already know there's demand. The question is whether you can deliver faster and more completely."

If no: "That's actually an advantage — you can position this as a brand new premium service from day one."

Q3 — Revenue model

"How do you currently charge your clients — project fees, retainers, hourly, or a mix?"

What you're listening for: Project-based people are often hungry for recurring revenue. Retainer-based people understand the model already.

If project-based: "This is your path to recurring revenue. Every client you onboard pays you monthly — not just once."

Q4 — Pricing confidence

"If you were to offer a complete digital growth system to one of your clients tomorrow, what would you charge them per month?"

What you're listening for: If they say under \$300 — they're undervaluing. If they say \$500+ — they're ready. Coach them on pricing if needed.

If under \$300: "Most of our partners charge \$400–\$700/month. At \$300, you're barely covering your cost. Let's talk about how to position the value so you can charge what it's worth."

Q5 — Upsell opportunity scan

"Of your current clients, how many do you think have no website, or a website that isn't working for them?"

What you're listening for: This is your immediate pipeline. Every client they name is a potential first sale.

Follow-up: "And of those — how many are actively losing customers because they're not showing up online?"

Q6 — CRM opportunity scan

"Do any of your clients currently use a CRM to manage their leads and follow-ups?"

What you're listening for: Most will say no. This is your CRM upsell pipeline — every client who says no is a CRM Premium opportunity.

Note: Record every "no" — these become your CRM upsell targets in Phase 4.

Q7 — White-Label readiness

"Do you have a business name and brand that you'd want on the platform — or would you be starting fresh?"

What you're listening for: Established brand = faster setup. No brand = help them think through naming before onboarding.

Q8 — Timeline and urgency

"If we moved forward today, how quickly do you think you could bring on your first client?"

What you're listening for: "Immediately" or "within a week" = high urgency, close now. "A few months" = lower urgency, set a follow-up date.

If immediate: "Then let's not waste time. I can have you set up within 48 hours of signing."

The Close

"Based on what you've told me, I think you're a strong fit for the White-Label programme. You have [X clients], you're already trusted by business owners, and you can see the demand."

"Here's what happens next: you sign the annual agreement, pay the \$499 setup fee, and we configure your branded platform within 48 hours. From that point, every client you onboard is yours — your brand, your pricing, your margin."

"Are you ready to move forward?"

PHASE 2 · DAY THEY SIGN UP — SETTING EXPECTATIONS AND BUILDING CONFIDENCE

The Onboarding Call

Goal: Welcome them properly, set clear expectations on deliverables and timelines, and get the information needed to configure their branded platform.

Timing: Within 2 hours of receiving payment and signed agreement.

Format: WhatsApp voice note or short call (15–20 minutes maximum).

Tone: Warm, confident, and organised. They should feel they made the right decision.

Opening — The Welcome

"[Name], welcome to the BluWav Growth White-Label programme. I'm genuinely excited to have you on board."

"I want to take 15 minutes right now to walk you through exactly what happens next, what we need from you, and what you can expect from us. By the end of this call, you'll know precisely what's happening and when."

Setting Expectations — The Timeline

Walk them through this timeline clearly. Write it down for them if needed.

Timeline	What Happens	Who Does It
Hours 0–2	Agreement signed, payment received, onboarding call	You + BluWav
Hours 2–24	Brand configuration: logo, domain, colour palette, platform setup	BluWav
Hours 24–48	Platform ready, partner receives login and walkthrough	BluWav
Day 3–7	Partner identifies first client, submits brief	Partner
Day 7–9	First client's system built and delivered	BluWav
Day 9–10	Partner presents to client, collects payment	Partner
Day 30	First monthly review call with BluWav	You + Partner

The 5 Things We Need From You (Right Now)

Collect these during or immediately after the onboarding call:

- Your business/brand name (as it will appear on the platform)

- Your logo file (PNG with transparent background preferred)
- Your primary brand colour (hex code if you have it)
- Your preferred domain or subdomain (e.g. crm.yourbusiness.com)
- Your WhatsApp number for client notifications

If they don't have a logo or brand colours yet:

"No problem — we can use a text-based logo with your business name for now, and update it when you're ready. Don't let that slow you down."

Setting Expectations — What We Deliver

"Here's what you're getting:"

- ✓ A fully branded CRM platform — your name, your logo, your domain
- ✓ A Super Admin dashboard where you manage all your client accounts
- ✓ 48-hour delivery on every client system you brief us on
- ✓ Your clients never see BluWav — ever
- ✓ Priority support — you get a direct WhatsApp line to our team
- ✓ Monthly check-in call to review performance and pipeline

What we need from you for each client:

A completed client brief (we'll send you the template). Takes 10 minutes. We do everything else.

Setting Expectations — What We Don't Do

Be clear about this upfront to avoid misunderstandings later.

- We don't contact your clients directly — ever. You are the relationship.
- We don't set your pricing. You charge what you want.
- We don't manage your client relationships. You do.
- We don't guarantee client results — we guarantee system delivery.

Closing the Onboarding Call

"So here's your action plan for the next 48 hours:"

1. Send me your logo, brand name, and domain preference today.
2. Identify your first client — the one you're most confident will say yes.
3. I'll have your platform ready within 48 hours.
4. We'll do a quick walkthrough call when it's live.

"Any questions before we get started?"

PHASE 3 · WITHIN 48 HOURS — PLATFORM WALKTHROUGH AND FIRST CLIENT BRIEF

The Setup & Expectation Call

Goal: Walk them through their branded platform, confirm they understand how to use it, and get the brief for their first client so you can deliver immediately.

Timing: Within 48 hours of the onboarding call — when the platform is ready.

Format: Screen share or video call (20–30 minutes).

Tone: Practical and efficient. They want to see results, not more talking.

Platform Walkthrough (10 minutes)

Show them these five things — nothing more. Keep it simple.

1. Super Admin dashboard — where they see all client accounts
2. How to add a new client account
3. The client brief form — what they need to fill in for each client
4. How to view client performance data
5. How to contact BluWav support (direct WhatsApp line)

Keep the walkthrough under 10 minutes.

"I'm going to show you the five things you need to know. Everything else you can explore on your own — it's intuitive. The most important thing right now is getting your first client onboarded."

The First Client Brief

"Now — who's your first client? Let's get their brief submitted right now, while we're on the call."

Walk them through the brief form together. Collect:

- Client business name and industry
- Client location (city/country)
- Client website URL (if they have one)
- Client WhatsApp number
- Package selected (Ripple / Current / Surge)
- Client's primary goal (more leads / better visibility / automation)
- Any specific requirements or preferences

"Once you submit this, we start building immediately. Your client's system will be ready within 48 hours. You'll receive a preview link to review before it goes live."

"You present it to your client. You collect payment. You keep the margin."

Setting the Pricing Conversation

Before ending the call, confirm how they're pricing their first client.

"What are you planning to charge [client name] per month?"

[If under \$400]: "I'd encourage you to go higher. The value you're delivering is worth \$500–\$700/month. If you start low, it's hard to raise later. What would make you comfortable charging \$500?"

[If \$400–\$700]: "Perfect. That's a healthy margin. You're paying us \$697 — so at \$500/client, you need two clients to break even. At \$700, you're profitable from client one."

[If over \$700]: "Excellent. That's premium positioning. Make sure you can articulate the value clearly — I can help you with that pitch if needed."

PHASE 4 · DAYS 7–14 — MAPPING THE PARTNER'S CLIENT BASE FOR UPSELL OPPORTUNITIES

The Upsell Qualification Call

Goal: Systematically map the partner's existing client base to identify upsell opportunities — CRM Premium upgrades, additional Growth System packages, and referrals to new White-Label partners.

Timing: 7–14 days after activation — once they've had their first client experience.

Format: 30-minute structured call. Come prepared with a list of their clients from the Discovery Call.

Tone: Consultative and strategic. You're helping them build a business, not just sell a product.

Opening

"[Name], I want to spend 30 minutes with you today doing something really valuable — mapping your client base so we can identify exactly where the next \$2,000–\$5,000 in monthly revenue is sitting."

"I'm going to ask you about each of your clients. For each one, I want to know three things: what they currently have, what they're missing, and what they'd be willing to pay for."

The Client Mapping Framework

Go through each client one by one. For each client, ask these questions:

Question	What You're Identifying	Upsell Opportunity
Do they have a website?	No website = Ripple opportunity	Growth System — Ripple (\$1,800+)
Is their website working for them?	Weak site = Current opportunity	Growth System — Current (\$3,000+)
Are they on Google Maps?	Not listed = GBP setup needed	Included in all packages
Do they use a CRM?	No CRM = CRM Premium opportunity	CRM Premium (\$299 + \$179/mo)
Do they follow up on leads?	No system = automation opportunity	CRM Premium or Current package
Do they run any ads?	No ads = Surge opportunity	Growth System — Surge (\$5,000+)
Do they have a WhatsApp Business?	No = WhatsApp setup needed	Included in Current/Surge

The Upsell Conversation Scripts

CRM Upsell — for clients with no CRM

"You mentioned [Client X] doesn't have a CRM. Can I ask — when a lead contacts them, what happens? Do they have a system to follow up, or does it depend on someone remembering?"

[They'll say it depends on memory]

"That's exactly the problem. Every lead that falls through the cracks is lost revenue. The CRM Premium fixes that — automated follow-ups, pipeline tracking, WhatsApp integration. It's \$179/month. You charge them \$250–\$350/month. That's \$70–\$170/month in pure margin, every month, from one client."

Growth System Upgrade — for clients on Ripple wanting more

"[Client X] is on Ripple — they have the foundation. But are they getting consistent leads from Google? Are they using WhatsApp to follow up automatically?"

[If no]

"That's what Current adds. Local SEO, WhatsApp automation, a lead pipeline, and a monthly check-in. The upgrade is \$1,200 — and you charge them whatever makes sense. Most partners charge \$500–\$800 for the upgrade."

Referral to New White-Label Partners

"[Name], you've now seen how this works. Do you know any other consultants, agencies, or advisors who work with business owners and could benefit from the same programme?"

"If you refer someone who signs up, you earn 20% of their first 3 months of monthly fees — that's \$418 per referral. And it compounds."

The Upsell Pipeline Summary

At the end of the call, summarise what you've found:

"Based on what you've told me, here's what I see in your client base:"

[X] clients with no CRM → CRM Premium opportunity → \$[X]/month additional margin

[X] clients on Ripple who could upgrade to Current → \$[X] upgrade revenue

[X] clients with no digital presence at all → new Growth System sales → \$[X] one-time

[X] potential White-Label referrals → \$418 per referral

"That's approximately \$[total] in additional monthly revenue sitting in your existing relationships. Let's build a 30-day plan to capture it."

The 30-Day Upsell Action Plan

Week	Action	Target Outcome
Week 1	Identify top 3 CRM upsell targets from client list	3 CRM Premium conversations started
Week 2	Present CRM Premium to each target	1-2 CRM Premium upgrades closed
Week 3	Identify Growth System upgrade candidates	2 upgrade conversations started
Week 4	Ask for 2 White-Label referrals	1 new White-Label partner referred

The Partner Success Formula:

Your existing relationships are your pipeline. Every client who doesn't have a CRM is a CRM sale. Every client on Ripple is a Current upgrade. Every consultant you know is a White-Label referral.
You don't need new clients to grow. You need to go deeper with the ones you already have.
