Get Found. Get Chosen. Grow.

Section 1 — About BluWav Growth

BluWav Growth is a digital growth systems firm. We help modern businesses get found online, get chosen by customers, and grow with clarity and confidence.

We are not a website agency. We are not a marketing shop. We are not a CRM company. We build integrated digital growth systems across four pillars:

Pillar	What It Delivers
Digital Presence	Professional website — fast, mobile-ready, built to convert.
Google Visibility	Google Business Profile, local search, maps presence, Bing listing.
Search Performance	Impressions, clicks, keyword trends, competitor gap analysis.
Digital Systems	CRM, automation, lead capture, follow-up flows.

The BluWav CRM connects all four pillars into one working growth engine. It is not the product — the growth system is the product. The CRM is how we make that system real.

Position BluWav Growth as a digital growth systems firm, not a website agency or CRM company. This distinction is what separates us from every competitor.

Section 2 — Your Role as a Sales Agent

As a Tier 2 Sales Agent, your job is to identify business owners who need a stronger digital presence, introduce them to the BluWav Growth system, and close the deal. You do not build websites. You do not set up CRMs. You sell the system and hand the client to the BluWav team.

What You Do

- Identify prospects: small and medium business owners who are invisible online or losing leads.
- Pitch the BluWav Growth system using the scripts and materials in this package.
- Close the deal and submit the lead through the BluWav team contact.
- Follow up with prospects who did not close on the first conversation.
- Refer CRM clients for recurring commission.

What You Do Not Do

- You do not onboard clients or set up any technical systems.
- You do not make promises beyond what is in the approved materials.
- You do not negotiate pricing without prior approval from the VP, Sales & Marketing.
- You do not represent BluWav Growth on social media without approval.

Section 3 — Products and Pricing

Always present BluWav as a system, not a menu of services. Clients who understand the system stop asking “can I just get the website?” and start asking “how do I get the full system?”

Section 5 — Sales Scripts

These scripts are starting points. Adapt the language to your natural style, but keep the core positioning consistent: BluWav Growth is a digital growth systems firm.

Opening Script (Cold Outreach)

“Hi [Name], I work with BluWav Growth. We help businesses like yours get found on Google, build a professional online presence, and automate customer follow-ups — all in one system. We deliver in 48 to 72 hours and you own everything we build. Would you be open to a quick conversation this week?”

Discovery Call Script

Open with a question, not a pitch:

“Before I tell you about what we do, can I ask: when someone searches for [their business type] in [their area] on Google, do you show up? And if they find you, is your website doing anything to turn them into a customer?”

Listen to their answer. Then:

“That is exactly what we fix. BluWav builds the full system: your website, your Google visibility, your WhatsApp setup, and a CRM to track every lead. Most clients go live in 48 to 72 hours. You own everything we build — no lock-in, ever.”

CRM Introductory Rate Script

“CRM Premium is \$179 per month right now. That is our introductory rate for early adopters. When we launch the BluWav Growth Dashboard, the price moves to \$199. Sign up today and your rate is locked in for life. No exceptions.”

Closing Script

“Based on what you have told me, I think [Ripple / Current / Surge] is the right fit. The investment is [price]. We start as soon as your invoice is paid, and you are live within 48 to 72 hours. Shall I send you the details?”

Free Health Check Script

“Before we go any further, let me offer you something completely free. It’s a short online form — takes two minutes — and it shows you exactly where your business stands online right now. No commitment, no sales pitch. Results come back within 24 hours. Want me to send you the link?”

Section 6 — Objection Handler

Objection	Your Response
“It is too expensive.”	“I understand. Let me put it in perspective. A professional website alone costs \$3,000 to \$8,000 at most agencies and takes 6 to 12 weeks. With BluWav, you get the website, Google setup, WhatsApp integration, and a CRM trial — all in 48 hours, starting at \$1,800. You are not paying more; you are getting more, faster.”
“I can get a website cheaper elsewhere.”	“You can. But a website on its own does not grow your business. BluWav builds the full system: the website, the Google visibility, the WhatsApp setup, and the CRM. A cheaper website is just a page on the internet. Our system is what turns visitors into customers.”
“I need to think about it.”	“Of course. What specifically would help you make the decision? Is it the investment, the timeline, or understanding exactly what you get? I want to make sure you have everything you need.”
“I already have a website.”	“Great. Is it showing up on Google when customers search for you? Is it capturing leads automatically? Is it connected to a CRM? Most websites we see are not doing any of those things. That is what we fix.”
“I am not ready yet.”	“I hear that a lot. Can I ask: what would need to change for you to be ready? Because every day you are not online, a competitor is winning the customer that should have been yours. Our free Digital Health Check takes 2 minutes and shows you exactly where you stand — no commitment.”
“I do not need a CRM.”	“Most business owners say that until they see how many leads they are losing. The CRM is not a complicated system; it is the engine that connects everything. Every lead from your website, every WhatsApp message, every referral — tracked in one place. And the 14-day trial is free.”
“We tried digital marketing before and it didn’t work.”	“I’m sorry to hear that. Can I ask what happened? [Listen] What BluWav does differently is bring everything into one connected system — website, Google, WhatsApp, CRM — so nothing falls through the cracks. The free Health Check is a great way to see exactly where the gaps are, with no commitment.”
“We’re a small business, we don’t need all this.”	“That’s exactly who BluWav is built for. Our Ripple plan starts at \$1,800 — it’s a one-time investment, you own everything forever, and it includes a 14-day free CRM trial. The Health Check just shows you where the biggest opportunity is for your specific business. No commitment.”

Section 7 — Your 30-Day Action Plan

4. Ask every conversation: “Do you know any other business owners who might need this?”

Week 4: Build Momentum

1. Review your pipeline. Who is close to closing? Follow up.
2. Aim for 3 closed deals by end of Month 1.
3. Submit your first payout request if you have cleared commissions.
